ENGINEERED
PARQUET.

You can live and love on parquet for generations. It is the eye-catcher of your interior, the basis that remains timelessly beautiful. Your parquet sets the tone, so it is important that it reflects who you are.

Lamett has grown into the undisputed trendsetter in Wood flooring and one of the top timber floor manufacturers worldwide. Lamett parquets provide floors with a top layer of high-quality characterful wood, designed to truly live on. Crafted in Europe the Lamett products are superior solid wood flooring products and tailor-made for demanding climate conditions.

A photograph of a man and a young child playing with wooden blocks on a dark wood floor. The man is kneeling on the left, wearing a white shirt and grey pants, and is placing a block on a stack. The child is sitting on the floor in the center, wearing a striped shirt and grey overalls, and is also playing with the blocks. There are several stacks of blocks and a yellow toy bus on the floor. The background shows a wooden chair and a dark red wall.

A man and a woman are lying on a light-colored wooden floor. The man, on the left, has grey hair and a beard, and is wearing a brown textured sweater. The woman, on the right, has dark curly hair and is wearing a brown cardigan over a light-colored button-down shirt. They are both smiling and looking at each other. The scene is lit with warm, natural light, creating a cozy atmosphere.
